

# COVID-19 Restrictions

SA

## What you can do from 2 November

You are now able to leave your home for any reason and for any amount of time. You can travel within South Australia and go to most venues, as long as physical distancing is followed.

## Physical Distancing

Always stay about 2 big steps away from other people you don't live with. Wash your hands often and don't touch your face.

Enough space for 1 person per 2 square metres.

## Visiting family

You can visit family but physical distancing should be followed and there is a limit of 50 people per house (including household members and guests).

## Police

Police could give you a warning, fine or possibly arrest you if you are not following these rules and you are over 16 years old.

## Responding to police

You need to provide your name and address and you should explain that you have a reasonable excuse to be where you are. You don't need to say any more. You can film your interaction with police in a public place if you are concerned about your rights.

## Meeting in public

Community gatherings are allowed as long as physical distancing is followed. Avoid touching others and stay home if you feel unwell.

## Region restrictions & remote communities

Some non-essential travel restrictions have been lifted. There are no designated areas in South Australia but check with the local council before travelling.

You are **not** allowed to enter South Australia from Victoria unless you are an essential traveller, you are escaping or providing support to a family member experiencing domestic violence, you are entering via NSW and you use certain highways and meet certain requirements, you are a student returning to South Australia after studying in Victoria, or you are relocating to live in South Australia.

## Sorry Business & funerals

Up to 150 people can attend a funeral, whether indoors or outdoors. Social distancing must be followed. You will be asked to provide your name and contact details for contact tracing. The 1 person per 2 square metres rule applies, and you should try and keep 1.5 metres apart. A COVID-Safe Plan must be completed.

## Elders & older people

You can care for Elders & older people, but you should follow physical distancing. Limits to visits to aged care homes.

See the First Nations Guide to COVID-19 Law - SA for more information
