

COVID-19 Restrictions

SA

What you can do from 1 November

While South Australia has followed a stage-by-stage relaxing of restrictions, the situation is changing, and some new restrictions have been put in place due to the recent hotspots. You can leave your home for any reason and for any amount of time. You can travel within South Australia and go to most venues, as long as density and physical distancing requirements are followed.

Physical Distancing

Always stay about 2 big steps away from other people you don't live with. Wash your hands often and don't touch your face. Generally, there should be enough space for 1 person per 4 square metres.

Region restrictions & remote communities

The Maralinga Tjarutja Council and Yalata Anangu Aboriginal Corporation have imposed temporary restrictions on entry to these communities. Check with the local council before travelling. A pre-approval process is now in place for travellers wishing to enter South Australia: Cross Border Travel Registration. All travellers, including essential travellers, intending to enter South Australia must register for the pre-approval 14 days prior to arrival.

Police

Police could give you a warning, fine or possibly arrest you if you are not following these rules and you are over 16 years old.

Responding to police

You need to provide your name and address. You don't need to say any more. You can film your interaction with police in a public place if you are concerned about your rights.

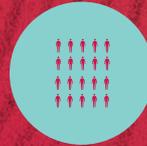

Meeting in public

Community gatherings outside are allowed as long as physical distancing is followed. Avoid touching others and stay home if you feel unwell.

Visiting family

You can visit family but physical distancing should be followed and there is a limit of 50 people per house (including household members and guests).

Sorry Business & funerals

Up to 150 people can attend a funeral, whether indoors or outdoors. The 1 person per 2 square metres rule applies (in a licensed premises), and you should always try and keep 1.5 metres apart from other people. A COVID-Safe Plan must be completed.

Elders & older people

You can care for Elders & older people, but you should follow physical distancing. Limits to visits to aged care homes apply.
